About me

Tamás Nagy is an assistant professor of psychology at Eötvös Loránd University, Budapest. He has been teaching advanced research methodology, data analysis and statistical inference, and R programming for psychology students. He leads the ELTE Stress and Emotions Lab, which uses experimental methods and psychophysiology to uncover how we perceive physiological arousal, and how it affects our emotions, cognition, and behavior.

Research interests

- The psychophysiology of human stress and emotions
- Machine learning, artificial intelligence, and computational science
- Improving psychological science

Academic and industry positions

- 2017- Assistant professor Budapest, Hungary Eötvös Loránd University, Institute of Psych.
- Main activities: Teaching, research, supervising graduate and undergraduate students, leading Ph.D. projects, overseeing the faculty's talent management program, managing grants, leading the Stress & Emotions Lab
 - Main achievements: reforming the 'Data Analysis and Statistical Inference' course for psychology undergraduates, establishing the R programming training for graduate students, creating a free online course for high school students called 'The Science of Psychology', winning and managing two research grants and four talent management grants, successfully increasing the number of students in the talent management program, open science
- 2014-2017 Lead researcher Budapest, Hungary Synetiq Ltd.
- Main activities: Designing, managing, and analyzing neuromarketing research projects at a startup company
 - Main achievements: Creating the research protocol involving psychophysiological methods and surveys. Leading successful research projects for large media and retail companies including HBO, AXN, RTL, BBC, The Dutch National TV, Lidl, Tesco, etc. Managed a research team to conduct media studies.
- 2012-2013 Research trainee Amsterdam, The Netherlands The University of Amsterdam
- Main activities: Writing a manuscript on the effect of the acute stress response on alpha-amylase and cardiovascular indicators. PI: Dr. Jos Bosch
- 2008-2010 Research assistant Budapest, Hungary Hungarian Academy of Sciences
- Main activities: Analyzing and planning of quantitative studies, preparing manuscripts in the Comparative Cross-cultural Psychology Lab
- 2006-2008 Counseling psychologist Budapest, Hungary Budapest University of Tech. and Econ.
- Main activities: Psychological counseling for students, conducting psychological measurements

Education

- 2019-2023 Postdoctoral fellow Budapest, Hungary Eötvös Loránd University
- 2010-2015 Ph.D. studies in Psychology Budapest, Hungary Eötvös Loránd University
- 2001-2006 M.A. studies in Psychology Budapest, Hungary Eötvös Loránd University

University offices and memberships

- 2023- Member of the Institutional Research Ethics Board.
2022- Head of the Stress & Emotions Research Group.
2019-2021 Acting head of the Social Interventions Research Group.
2019- Member of the Research Transparency Committee.
2018- Member of the ELTE Talent Management Council.
2018- Faculty head of the Scientific Student Circle of ELTE PPK.

Grants

- 2018-2022 National Talent Program
• Amount: HUF 10.4M
• Description: Short (1 year) grants to fund the faculty talent management program
- 2019-2023 Postdoctoral grant
• Amount: HUF 25.5M
• Description: National Scientific Basic Research Programs - Research grant to study the role of emotional arousal in media-induced stress recovery
- 2018-2021 Young researcher grant
• Amount: HUF 28.5M
• Description: National Scientific Basic Research Programs - Research grant to study the effects of intelligence mindset and mindfulness meditation on performance

Awards and honors

- 2021 ELTE Online course development award
• For creating e-learning material for 'Data analysis and Statistical Inference' course.
- 2020 ELTE's Promising Researcher Special Award for Open Science
• For outstanding achievements in the field of open science
- 2018 Erasmus+ research and training mobility
• Participation in a Bayesian statistics workshop in Amsterdam
- 2016 Special prize at the Brain and Vision Hackathon
• For integrating EEG systems into mobile, PC, and web applications
- 2012-2013 Erasmus+ traineeship
• University of Amsterdam, Netherlands
- 2010-2014 Hungarian state scholarship
• To pursue doctoral studies at ELTE

Teaching experience

- Data analysis and statistical inference lecture (B.A., Hungarian)
- Multivariate statistics lecture (M.A., Hungarian and English)
- Statistical programming and data analysis in R seminar M.A. and Ph.D, English)
- Advanced research methodology in clinical and health psychology seminar (M.A., English)
- Advanced data analysis methods in R seminar (M.A., Hungarian and English)

Workshops held

2022	Regression Summer School 22 • Regression summer course jointly held of the students of ELTE and University of Vienna, https://osf.io/em5k4/	University of Vienna
2022	Vienna Power Analysis in R Workshop • Workshop about simulation based power analysis in R, https://osf.io/2tp3y/	University of Vienna
2022	Introduction to R and the Tidyverse • Two day introduction to R, https://osf.io/mx3vw/	University of Vienna
2022	Meta-analysis Workshop • Workshop about the theory and practice of meta-analysis (Hungarian), https://osf.io/ug8cz/	Semmelweis University
2021	Open Science Workshop • Workshop about open science practices (Hungarian), https://osf.io/fz3pb/	Eötvös Loránd University
2020	Open Science Workshop • Workshop about open science practices (Hungarian), https://osf.io/swntk/	Eötvös Loránd University

Languages

- English (professional level)
- Hungarian (native language)
- German (limited professional level)
- Japanese (basic level)

Programming languages and data science tools

- R: developer level
- git, markdown: professional level
- SQL, python, Matlab, latex: basic level (I can use them but prefer R and other tools whenever possible)
- SPSS, JASP, JAMOVI: professional level (I can teach these, and tutor others, but I don't use them myself)

Journal positions and activity

- Ad hoc peer review activity at multiple journals: <https://www.webofscience.com/wos/author/record/J-5969-2019>
- Associate editor at Hungarian Psychology Review (Magyar Pszichológiai Szemle)

Society memberships

- Hungarian Psychological Society
- Society for the Improvement of Psychological Science
- Member of the public body of Hungarian Academy of Sciences
- Member of the Psychological Science Accelerator

Working papers and manuscripts under review

Hajdú, N., Szászi, B., Aczél, B., & Nagy, T. (Under review). Using supervised machine learning methods in psychological research. *Magyar Pszichológiai Szemle*.

Nagy, T., Hergert, J., Rubínová, E., Tyson, G., Wallrich, L., Elsherif, M., Skvortsova, A., Payne, J., Alarie, S., Wang, Y. A., Graves, K., Schmidt, K., Sotola, L., Waltzer, T., Gjoneska, B., Seetahul, Y., Yang, Y.-F., Scharfenberg, D., & Moreau, D. (Under review). The Questionable Research Practice Bestiary. *Advances in Methods and Practices in Psychological Science*.

Nagy, T., Ipacs, H., Ferentzi, E., & Köteles, F. (Under review). Heart rate perception and expectation impact laboratory-induced perceived stress. *Biological Psychology*.
